

There is no **Poop Fairy** ...

Pet waste that is not scooped is a big problem for East Meadow and the lakes, streams and waterways we enjoy in Kirkwood. Dog waste left alone can pollute ground and surface water, attract pets and flies, create an unpleasant odor and be unhealthy for children, dogs, and wildlife because dog waste can transmit parasites and infectious diseases. In Kirkwood, poop ruins the beauty of our winter snow and the feeling of being out in nature in the summer months.

Do you like taking a walk in the neighborhood and looking at all the nasty poop? Isn't it crazy that a dog owner would think it's ok to leave a pile in your driveway? Remember there is no Poop Fairy!

Each dog owner must be responsible and scoop their pooch's poop. All you have to do is grab it, bag it and toss it into the trash. (Please don't leave it on the side of the road or on the trails.) For your renters, please provide poop bags and leave a note encouraging your tenants to clean up after their pets too.
