

❄️ **NEW!** ❄️

SNOW REMOVAL PRIORITY SYSTEM

KMPUD is testing out a new priority route system for snow removal that will allow operators to clear driveways of occupied residences before unoccupied residences during snow events. Every day, a Priority List will be generated and distributed to the snow removal operators at the beginning of their shift. In order to be included in the Priority List the next time you, or your guests, plan to be in residence at your Kirkwood home:

1. Log in to My Account at www.kmpud.com
2. Click Manage Snow Removal
3. Input your Arrival Date and note your Departure Date in the Notes section
4. Click Set Notification

Please enter mid-week arrival dates at least one day before arrival, and weekend arrivals two days before arrival. You may see some changes to the Manage Snow Removal page on the website over the next few weeks as we refine the new system. In the interim, please continue to use the existing page and enter the information in the comment section.

In order to maximize District efficiency, the Priority List will be automatically generated and distributed through the website, so all notifications must be entered at www.kmpud.com. If you have any questions on how to log a notification or need help setting up your account, please contact our office at [209-258-4444](tel:209-258-4444).
